Subject: ELIS- Sediment sampling: Submission of Data - ready for USEPA QA review
App G - Sediment Chem Report (IN PREP.) (16Mar15).docx

Hi Jeannie,

Ex. 5 - Deliberative Process

Instructions for access are in the email below. Each report has the RIM data sheet, the summary package (email to you earlier today), the full data delivery package, and COC. Please let me or Kay Howard-Strobel from UCONN know if you need some assistance locating the reports.

Also attached is the Sediment Chemistry Report (in preparation). The next step for this report is the USEPA QA/QC review for data validation etc., per QAPP. Please review the data and provide text for Section 3.2 in the attached Sediment report.

Thanks,

Bernward.

Subject: Re: ADEx Confirmation for L1503772 Project Number: None Supplied Project Name: LIS-USACOE RIM DREDGE

Hello Bernward,

Maybe this will help - We have setup Louis Berger/UCONN up with an ADEx account. This is where the EDDs and reports are stored. Here is a brief review as to how to access the files.

Ex. 5 - Deliberative Process / Personal Privacy

Once logged in, click on the ADEx button in the middle of the screen.

On the right side of the next page, enter the Alpha report number (i.e.: L1503772) and then click the Search button located just below the box where you entered the report number.

Scroll to the bottom of the page, and you will see another box called Download. You can click

on any file to download, view, save, etc.

I spoke to Jim O'Donnell when the first report was issued, and I walked him through this, so I'm assuming he's good at this point with how to access the data.

Please let me know if you have any questions or need anything else.

Thank you!

Liz
